

The Future is here! **Selling and Servicing TPA Benefits in the 21st Century!**

Attend Our Free Seminar! Three locations to choose from.

Dickerson Insurance Services and TASC invite you to attend our free seminar on Universal Benefit Accounts, a ground breaking benefits solution that returns value to a company. Now you can offer employees a better more connected benefits experience with only one website, one mobile app and one TASC card for all accounts!

TASC's commitment to excellence and innovation extends far beyond the clients we serve with this groundbreaking benefits solution that returns value to your company.

- You'll learn how TASC got to Universal Benefit Accounts
- Learn about accounts vs. plans – helping benefits feel like benefits!
- We will also discuss features including identity theft, card decline protection, picture to pay and many more.

You'll learn how to position it, propose it, price it, sell it and service it. You'll find out how the client and participant experience will change and where the benefit compliance comes in.

These seminars are presented by Nancy Dantzman, Vice President, Sales, TASC
