

OPERATION SHOUT!

Dear CAHU Members,

We need your help in requesting that the California Assembly OPPOSE AB 1400, which mandates a government run single payer health care program and abolishes private health insurance, Medi-Cal, Medicare, Covered California, and the valuable advocacy services of insurance professionals.

AB 1400 forces Californians into healthcare chaos while demanding they hand over an additional \$200 billion dollars per year in new state taxes on jobs, income, services and more – making it more expensive to live in California for working families, seniors and employers.

AB 1400 would force every single Californian into a government plan, taking away any choice for anyone who might want to select private coverage or opt out.

Contact your state assembly member today and urge them to OPPOSE AB 1400!

Thank you,

California Agents & Health Insurance Professionals
